C. S. Flavours and Fragrances
Capturing the Essences

BACK TO NATURE: THE FUTURE FRAGRANCES

There is a growing need felt to connect back to nature, to slow down and to create personal moments of inner peace. At C. S. Flavours and Fragrances, we pride ourselves on keeping a finger on the global pulse and curating, creating and perfecting fragrances for the contemporary consumer. We work closely with our clients to understand the needs of their specific markets and deliver the right strength of fragrance in timelines defined.

Over the years, our fragrance experts have evolved the science of formulating just the right fragrances and aromas into a fine art. Our application experts are constantly experimenting with new products, new applications and study the consumer and markets closely to better understand the desires in the world of fragrance.

The preferred partner for fragrances across industries

At CSFF, we believe in doing business by strengthening our fundamentals. With a vision to expand our centres and offerings to markets across the world, all our interactions are governed by effective and proven principles:

COMMITMENT
To quality, to timelines, to client requirements.

SPEED
Of delivery, of communication, of product development and rollout.

TECHNOLOGY
To lead markets from the front, to drive innovation, to identify and create the new.

FLEXIBILITY
That lets us adapt to varying local preferences, to fine tune in optimal timelines.

SCENTS
Are triggers for memories, emotions, responses; a science that we are constantly studying. Our focus is to create aromas and fragrances that strike the fine balance between the natural and the chemical as we create signature fragrances.

BACKED BY A 2000 YEAR OLD

TRADITION OF EXOTIC FRAGRANCES

C. S. Flavours and Fragrances is headquartered in Mumbai, with its facility in Karodi, Maharashtra. Established in 1964, the company is focussed on future trends and visions. We come with a proud and evolved 2000 year old Indian tradition of exotic fragrances. As a culture, ancient India has been admired for its sensorial luxuries in the area of personal care and ambience creation. CSFF carries forward this legacy and knowledge in contemporary, scientific and precision led world, creating unique blends, with lighter or heavier notes as per our client needs.

As bold becomes the new normal, there is much that we believe that can be delivered. The choice and flexibility we offer our clients is what sets us apart in today's highly competitive markets.

Technical Details

- | | |
|---|--|
| Design and supply specialty fragrances and aroma chemicals. | A network of strategic geographic partners for wider global reach. |
| Product design and manufacturing is customized to meet client's individualised profiles, applications, project needs. | Capabilities to develop fragrances for complete range of end use products; and signature fragrances. |

A BOUQUET OF NATURE

The more our lives become connected and automated, the greater is our need to connect with nature and its elements.

Led by this very defined shift towards the outdoors, towards the fresh smells and fragrances that remind one of open spaces, sunny days and crisp winter climes; CSFF has developed a wide range of nature based fragrances. Apart from the immensely popular citrus, floral and woody notes, we have also recently introduced some exotic ones like sea fennel and umbellifer. These are new fragrances that are trending in the home care segment today.

Our products have been formulated to have stability in complex bases and offer excellent fragrance delivery at the end media. Fragrances in this category are designed to linger for longer and help in uplifting the mood.

Our fragrances are ideal for applications in:

DISHWASHING LIQUIDS & BARS

FLOOR, GLASS, TOILET & MULTI-PURPOSE CLEANERS

DETERGENT BARS, POWDERS,
LIQUIDS, PASTES, KITCHEN CLEANSERS

FABRIC SOFTENERS, WHITENERS

A TREAT FOR THE SENSES

Time to pamper oneself, to indulge in self care has been the theme of ancient Indian paintings, where both men and women have been depicted spending time in fragrant baths, and anointing themselves with aromatic oils.

At CSFF, we take our inspiration from the traditional fragrances, and have expanded our personal care portfolio to encompass all that is the best. From exotic lavender, sandalwood and wood rose to lighter European preferences to the contemporary luxuriant scents of oleander and sparkling champagne, we offer the complete range.

We specialise in formulating exclusive Signature fragrance creations, and work with well-known themes with new concept interpretations. We perform well in developing base-stable blends for challenging media.

Our fragrances in the personal care range are ideal for applications in:

- SHAMPOOS, CONDITIONERS
- ANTI-AGING CREAM, BODY LOTIONS
- FACIAL CLEANSERS, FACIAL MOISTURIZERS
- SHAVING CREAMS, SHAVING GELS, AFTER-SHAVE LOTIONS
- DEODORANTS, ANTI-PERSPIRANT PRODUCTS
- BODY WASHES, SHOWER GELS, HANDWASHES
- BATHING BARS, SOAPS

THE MAGIC IS IN THE AIR

Our memories of places are triggered by the smells we associate with them. The aroma of cake being baked reminds one of home, the smell of rosemary incense is often associated with holy and sacred places of peace.

This power of incense and air care fragrances to define spaces has been expanded to homes, offices and commercial spaces as well.

At CSFF, we offer a range of aesthetically pleasing fragrances for incense sticks, aromatic candles, room sprays and all other air care products. Our range of incense stick fragrances are noted and appreciated for their exquisite and long lasting fragrances. They are formulated to create the mood of serenity, tranquillity and concentration of the mind.

Ideal for applications such as:

INCENSE STICKS

AROMATIC CANDLES

ROOM SPRAYS, DIFFUSERS

CAR FRESHENERS

FINE FRAGRANCES

FOR THE UBER FASHIONABLE

Fine fragrances define and lead the world of fashion and lifestyle. Today's fashion followers are in the pursuit that takes them back to nature, has green processes, is simple yet elegant.

Our fragrance experts are constantly striving to create formulations that define the tastes and lifestyles of the contemporary fashionables. The range is vast spanning exquisite European fragrances, earthy Asian mid-tones and exotic Arabic perfumes. Our technologists are committed to finding the perfect interpretation of popular notes and incorporating these into master fragrances for renowned industry names.

We produce consistent and high quality fine perfumes suitable to satisfy the needs and standards of F & F houses worldwide.

Our Fine Fragrances serve as ideal bases for key perfume categories:

FLORAL	FRUITY
CITRUS	GREEN
WOODY	OCEANIC
SPICY	ORIENTAL
